Disassemblable PVC ball valve 63 mm solvent weld

Brand: Jimten

Reference: JIMT 052206

Spherical valve made of PVC with a nominal diameter of 63 mm and removable design for easy maintenance. It is installed by gluing system, ensuring an airtight connection. Suitable for flow control in agro-food and industrial facilities, offering a reliable technical solution for various fluid applications.

Description

Spherical valve made of PVC with removable design and gluing bonding system. This component is designed to facilitate flow control in facilities of various types, offering a functional solution for agro-food and industrial applications.

Technical characteristics

- Material: PVC
- Type: Ball valve
- Nominal diameter: 63
- Union: Collapse
- Design: Removable

The detachable structure allows for more agile maintenance, while gluing ensures a secure connection. Its compatibility with PVC makes it suitable for systems where this material is standard, covering specific control needs in the agri-food sector and industry.

Specifications

Diameter	63 mm
EAN	8426621522066
Manufacturer	Jimten

Range	Industrial
Material	PVC
Measures	63 mm
