Description

Sphere valve made of PVC with removable design and 1.1/2" female thread connection. This component is designed to facilitate flow control in various types of facilities, offering a practical solution for applications in the agri-food or industrial field.

Technical characteristics

- Material: PVC
- Type: Detachable sphere valve
- Size: 1.1/2"
- Connection: Female Thread

The detachable structure allows for more accessible maintenance, while PVC material adapts to control needs in agro-food and industrial environments.

Specifications
