Description

The L-400 mixed key is a hand-held tool designed for tightening and loosening nuts and hexagonal screws. Its design combines two types of jaws in a single piece, allowing the user to choose between the speed of the fixed mouth or the accuracy of the open mouth according to the working situation. This model is specifically dimensioned to work with measures of 1/2, 3/8 and 3/4, covering a range of common sizes in mechanical installations and repairs.

Technical characteristics

- Model: L-400.
- Working measures: 1/2, 3/8 and 3/4.
- Type of tool: Mixed key.

The versatility of this key lies in its ability to adapt to different diameters without changing tools. The combination of measurements in a single instrument facilitates access to connections of different sizes, optimizing the operating time in maintenance or assembly tasks where the nut size is required to vary quickly.

Specifications

EAN	8429343421129
Manufacturer	Tucaí
Range	Industrial

Long	400 mm
Material	Acero al carbono
