Multipex PPSU Elbow 16x2

Brand: Blansol

Reference: BLAN MULPPLKC16

BARBI Multipex PPSU 16x2 elbow for pipe systems. Made of polyphenylsulfone, it offers high thermal and pressure resistance. Dimensions 16x2 mm ensure watertight connections in hot and cold water installations, ensuring technical durability.

Description

BARBI's Multipex PPSU 16x2 elbow is a component designed for pipe connection in plumbing systems. This accessory allows to make direction changes in the installation maintaining the integrity of the water flow. Its manufacture in polyphenylsulfone (PPSU) confers specific properties of heat and pressure resistance, which makes it suitable for the transport of both hot and cold water. The specific 16x2 design ensures a safe and efficient connection between the various elements of the hydraulic circuit.

Technical characteristics

- Material: Polyphenylsulfone (PPSU)
- Dimensions: 16x2
- Mark: BARBI
- Resistance: High heat and pressure
- Implementation: Hot and cold water installations

This elbow offers a reliable solution for construction and installation professionals. Its structure allows a quick and easy installation, optimizing working time on site. The durability of the material ensures stable performance under standard conditions of use.

Specifications

EAN	8432848064937
-----	---------------

Manufacturer	Blansol
Measures	16x2 mm
Weight (kg)	0.01
