Multipex PPSU Elbow 25x2.5

Brand: Blansol

Reference: BLAN MULPPLKC25

BARBI Multipex PPSU 25x2,5 elbow for pipe systems. Made of PPSU polymer, it offers high tensile strength and deformation. Its design facilitates safe installation in construction projects, ensuring durability and wear resistance in professional applications.

Description

The BARBI Multipex PPSU 25x2.5 elbow is a component designed for pipe connection in installation systems. This accessory is made of PPSU, a polymer characterized by its high tensile strength and deformation, which contributes to system durability and wear resistance during use.

Technical characteristics

- Material: PPSU (high tensile strength and deformation polymer).
- Dimensions: 25x2,5.
- Mark: BARBI.
- Function: Connection of pipes in installation systems.

The combination of PPSU material strength and the specific dimensions of 25x2.5 allows for adaptation to various construction needs. This design facilitates a safe installation, offering a practical and reliable solution for professionals in the installation and construction sector.

Specifications

EAN	8432848064951
Manufacturer	Blansol
Measures	25x2,5
