M Multiplex 20x2.0-1/2 Threaded Elbow

Brand: Blansol

Reference: BLAN MULPTHKCR2X12

Derivation elbow for pipe Multiplex 20x2,0 mm with male thread 1/2". Made by BARBI, this component allows the secure connection between polypropylene systems and standard threads. Its design optimizes flow in cold or hot water installations, ensuring watertightness and mechanical resistance in residential or industrial applications.

Description

The M Multiplex 20x2,0-1/2" thread elbow of the BARBI brand is a component designed for the connection of pipe systems. This accessory allows 90 degree turns in the installation, facilitating the adaptation of the fluid network to the needs of the space. Its structure is designed to provide a stable connection between the different elements of the channeling system.

Technical characteristics

- Mark: BARBI
- Diameter: 20 mm
- Thread: Male 1/2"
- Material: Multiplex

This elbow provides a safe connection between tubes and threads, contributing to the integrity of the pipe system. Its specific design for the diameter of 20 mm ensures direct compatibility with the corresponding tubes, optimizing the installation in plumbing or heating installations where this standard measurement is required.

Specifications

Diameter	20 mm
----------	-------

EAN	8432848052132
Manufacturer	Blansol
Range	Industrial
Long	20 mm
Measures	20x2,0 mm
Depth	2,0 mm
Thread	1/2"
