Description

BARBI's reduced EasyPress 20-16 cuff is a connecting part designed to join pipes of different diameters into fluid systems. Its main function is to allow the transition between lines of 20 mm and 16 mm, ensuring continuity of flow in technical installations.

Technical characteristics

- Mark: BARBI
- Model: EasyPress 20-16
- Type: Short sleeve
- Connection diameters: 20 mm and 16 mm

This piece facilitates the adaptation of diameters in hydraulic circuits, contributing to the organization and functionality of the installation. By connecting tubes of different calibres, it helps to maintain the integrity of the pipe system.

Specifications

EAN	8432848046131
Manufacturer	Blansol
Long	20 mm y 16 mm
