Description

The BARBI Multipex 32 joint sleeve is a specific component for the 32 mm pipe connection, designed to ensure the union integrity in plumbing systems.

Technical characteristics

- Compatible pipe diameter: 32 mm
- Mark: BARBI
- Function: Union of pipes

This accessory allows safe connections between tube sections, facilitating the continuity of the hydraulic circuit. Its design is oriented to offer stability in the union, contributing to the overall efficiency of the piping system.

Specifications

Diameter	32 mm
EAN	8432848052620
Manufacturer	Blansol
Material	Polypropylene
