Multipex Reduced Sleeve 32-25

Brand: Blansol

Reference: BLAN MULPTHKMR3225

BARBI Multipex 32-25 reduced sleeve for joining 32 mm and 25 mm cross-linked polyethylene pipes. Made of high strength material, it allows watertight and durable connections in sanitary hot water installations and air conditioning, facilitating the change of diameter in the hydraulic circuit.

Description

BARBI's reduced Multipex 32-25 cuff is a component designed to connect pipes of different diameters, facilitating the adaptation of installation lines. Its main function is to allow safe connection between 32 mm and 25 mm ducts, optimizing flow continuity in plumbing systems.

Technical characteristics

- Mark: BARBI
- Model: Multipex 32-25
- Connection diameter: 32 mm and 25 mm
- Function: Diameter reduction for pipe coupling

This piece allows an efficient transition between different calibres, ensuring a stable connection. Its specific design for these diameters helps maintain the integrity of the installation by joining sections of different size.

Specifications

Diameter	32 mm y 25 mm
EAN	8432848054327
Manufacturer	Blansol
Material	Polietileno
