Description

BARBI's EasyPress 25-25-20 is a specific connection component for pipe systems. Its main function is to allow the binding of 25 mm sections with a derivation of 20 mm, facilitating the management of the flow in plumbing facilities. This element is designed to be integrated into construction and maintenance projects where a secure and efficient connection is required.

Technical characteristics

- Mark: BARBI
- Model: EasyPress
- Dimensions: 25-25-20

The compact design of this one allows its handling in reduced spaces, optimizing the work in areas with limited access. As a connecting component, it contributes to the stability of the pipe system by ensuring a correct connection between the different diameters indicated. Its structure is oriented to offer stable performance during professional use in plumbing facilities.

Specifications

EAN	8432848046247
Manufacturer	Blansol
Measures	25-25-20
