Tee EasyPress 32-25-32

Brand: Blansol

Reference: BLAN EASYAIKT32252

The EasyPress 32-25-32 te from BARBI is a bonding accessory for pipes of different diameters. Its robust construction allows it to withstand high pressures and temperatures, ensuring a secure and durable connection in demanding installations. The design facilitates installation, optimising assembly time and ensuring stable technical performance in construction projects.

Description

The BARBI EasyPress 32-25-32 is a bonding component designed to connect pipes of different diameters, facilitating the adaptation of lines in fluid installations. Its main function is to ensure a stable connection between sections of 32 mm and 25 mm, optimizing flow continuity in distribution systems.

Technical characteristics

- Mark: BARBI
- Model: EasyPress
- Input diameter: 32 mm
- Output diameter: 25 mm
- Secondary input diameter: 32 mm
- Connection type: EasyPress

This accessory allows to integrate sections of pipe with different calibres in an efficient way. The EasyPress designation suggests a binding system that seeks to simplify the assembly process, reducing technical complexity in the installation phase. Its structure is designed to offer a practical solution in projects where it is necessary to vary the diameter of the line without losing the integrity of the connection.

Specifications

High	32 mm
Width	32 mm
EAN	8432848046506
Manufacturer	Blansol
Measures	32 mm x 25 mm x 32 mm
Depth	25 mm
