Description

BARBI Multipex 25x2.5 is an essential component for pipe systems, designed to ensure continuity of flow in construction facilities.

Technical characteristics

- Diameter: 25 mm
- Thickness: 2,5 mm
- Mark: BARBI
- Material: High resistance

This product offers exceptional durability in extreme conditions and allows quick and efficient installation, minimizing working time. Its structure is optimized to ensure constant and uninterrupted water flow, which contributes to the overall performance of the hydraulic system.

Specifications

Diameter	25 mm
