Description

The reduced BARBI Multipex 25-25-20 is a connecting part designed for the installation of pipe systems. Its main function is to allow the distribution of water and the adaptation of diameters within the plumbing network, facilitating integration into different installation configurations.

Technical characteristics

- Mark: BARBI
- Model: Multipex 25-25-20
- Connection diameters: 25-25-20
- High quality construction

This piece offers an effective solution for flow management in pipe systems. Its robust design ensures a secure and reliable connection, being a suitable choice for construction professionals looking for durable and resistant components in their installation projects.

Specifications

Diameter	25-25-20
EAN	8432848054464
Manufacturer	Blansol
