Description

The reduced BARBI Multipex 32-25-32 is a connecting part designed to facilitate the joining of pipes with different diameters within plumbing systems. Its main function is to allow an efficient transition between tubes of different calibres, ensuring continuity of flow in technical installations.

Technical characteristics

- Mark: BARBI
- Model: You reduced Multipex 32-25-32
- Compatibility: Multipex Pipes
- Function: Connection of pipes of different diameters

This piece offers a versatile solution for construction and installation professionals, allowing to adapt pipe networks according to the specific needs of the project. Its intuitive design contributes to easy handling during the assembly phase.

Specifications

Diameter	32 mm
EAN	8432848054433
Manufacturer	Blansol
Material	Polypropylene
