Description

BARBI's H Multipex 20x2,0-1/2" output is a plumbing component designed to facilitate pipe connection in hydraulic installations. This element allows to perform bypasses and direction changes in the fluid circuit, ensuring a stable connection between the ducts.

Technical characteristics

- Model: You output H Multipex
- Nominal diameter: 20x2,0
- Threaded connection: 1/2"
- Mark: BARBI

This piece is designed to be integrated into water distribution systems, where a reliable and accurate connection is required. Its specific format allows the flow to be adapted to the needs of the project without additional complications.

Specifications

EAN	8432848053009
Manufacturer	Blansol
Measures	20x2,0
Thread	1/2"
