

## Product sheet

## Galvanized reinforcement angle 1-30 mm 378

Brand: AMIG

Reference: ALM 3006.0621

Steel reinforcement angle with square edge and zinc finish. Ideal for metal structures. Available in sizes of 1 to 30 mm. Model 378 AMIG.

### Description

The box 100 zinc-plated angles 1-30mm 378 AMIG is a metal reinforcement element designed to provide stability and rigidity in assembly structures, especially in industrial or lightweight construction applications. Its square edge and square shape allow a precise and secure coupling between profiles.

#### Technical characteristics

- Material: steel
- Coating: zincated
- Thickness range: 1-30 mm
- Model: 378
- Mark: AMIG
- Type: reinforcement angle
- Form: squadron
- Profile: square edge

This product is designed for use in assemblies that require reliable structural bonding between metal profiles, ensuring alignment and mechanical resistance.

### Specifications
