### Description

The box 100 zinc-plated angles 1-40mm 381 AMIG is a structural reinforcement element made of zinc-finished steel, designed to provide stability and rigidity in metal assemblies. Its square and square edge shape allows a precise connection between profiles, ideal for applications in metal carpentry, support structures or industrial assemblies.

#### Technical characteristics

- Material: steel
- Finishing: zincated
- Form: squadron
- Singing: square
- Dimensions: 1-40 mm
- Reference: 381 AMIG
- Units: box of 100 units

The angled design allows a secure and aligned bonding between metal profiles. Its zincated finish offers protection against oxidation in indoor environments.
