Galvanized reinforcement angle 1-80 mm

Brand: AMIG

Reference: ALM 3006.0625

Steel reinforcement angle with square edge, made of zinc. Ideal for structural applications in metal assemblies. Available in size 1-80 mm, unit of 390 pieces.

Description

The box 50 zinc-plated angles 1-80mm 390 AMIG is a structural reinforcement element made of zinc-finished steel, designed to provide stability and rigidity in angle joints in industrial or metal mounting applications. Its square edge and square shape allow a precise and secure connection between profiles.

Technical characteristics

- Material: steel
- Finishing: zincated
- Shape: reinforcement angle
- Profile: square edge
- Application: squadron
- Measurement range: 1-80 mm
- Reference: 390 AMIG
- Units: 50 units per box

This product is designed for use in metal assemblies where a fixed and resistant bond is required. Its square design facilitates precise alignment between profiles.

Specifications

EAN	8413023003903
-----	---------------

Manufacturer	AMIG
Measures	1-80 mm
Weight (kg)	0.5 kg
