Description

Triangular quarter round counter lock, designed for applications where secure and controlled closure is required. Made of Zamak, it offers a robust construction and resistant to mechanical wear.

Technical characteristics

- Type: Lock counter quarter round
- Form: Triangle
- Diameter: 8 mm
- Thread: M20
- Model: 193
- Reference: C50
- Mark: AGA
- Material: Zamak

The triangular design allows for precise adjustment in mechanical locking systems, while the M20 thread facilitates installation in elements with this type of fillet. Its construction in Zamak ensures good mechanical strength and durability in industrial or general use environments.
