Description

T60 security pump in brass, model T6553030L, with 6 anti-gallion alpaca pistons, designed for high-security applications. It incorporates a patented anti-bumping system and anti-drill protection, ensuring greater resistance to unauthorized handling attempts. It complies with EN 1303, which certifies its level of protection against forced opening techniques.

Technical characteristics

- Model: T6553030L
- Material: Brass
- Length: 60 mm
- Number of pythons: 6
- Piton material: Alpaca
- Anti-bumping system: Patented
- Drill protection: Yes
- Certification standard: EN 1303

This bulb is designed for use in security locks where resistance to forced opening techniques is required. Its brass construction and alpaca pythons contribute to its robustness and durability in demanding environments.

Specifications

EAN	8414625257848
Material	Latón
# Elements	6
Protection	Sí
