Description

Double-turn central lock for boxes, model 2V E-E-2000 -2010-2000B, manufactured by Ezcurra. Designed for use in safety boxes or cabinets, it offers mechanical closure with double turn for greater security in standard applications.

Technical characteristics

- Model: 2V E-E-2000 -2010-2000B
- Mark: Ezcurra
- Type: Central lock
- Settings: Double turn (2V)

The double-turn design allows for a safer and more stable closure in metal boxes or storage structures. Its mechanical operation ensures a reliable closure without the need for power supply.
