Description

320 mm curved Japanese pruning saw, designed for precise cuttings in hard wood and fine branches. Its curved geometry allows a more efficient and controlled cutting, ideal for gardening and bush maintenance jobs. Made in Sweden, it guarantees quality and durability in its construction.

Technical characteristics

- Length: 320 mm
- Mango: Bimaterial
- Origin: Sweden
- Includes plastic cover

The curved knife design facilitates cutting at non-flat angles and surfaces. The bimaterial handle offers a firm and comfortable grip during prolonged use.

Specifications

Long	320 mm
