Led Power Supply Lifud 150W 24Vdc Dimmable DALI/PUSH

Brand: Lifud

Reference: LEDME LF-GHD150D-24

150W Lifud led power supply, 24V DC output, with DALI DT8/DT6 and Push regulation. Designed for surface installation, with IP20 protection and electric insulation class II. Operating in temperature ranges from -20°C to +50°C, power factor greater than 0.9, and integrated protections against overload, short circuit and overheating.

Description

150W Lifud led power supply with 24V DC adjustable output, designed for LED lighting applications controlled by DALI DT8/DT6 protocol or by push-button (Push). Ideal for industrial or commercial installations where precise regulation and stability are required under variable environmental conditions.

Technical characteristics

- Maximum power: 150W
- Power supply: 220-240V AC
- Frequency: 50/60 Hz
- Output: 24V DC
- Working temperature: -20°C ~ +50°C
- Protection: IP20
- Ik: 4 Kv
- Class Electrical insulation: II
- Overheating protection: Yes
- Overload Protection: Yes
- Short circuit protection: Yes
- Power Factor: >0.9
- Flicker Free: Yes

- Regulatory: DALI DT8/DT6/PUSH
- Installation: Area
- Dimension: 310X43X30H mm
- Material: PC
- Driver: Lifud
- Guarantee: 5 years

Thanks to its DALI regulation and Push function, it allows the light intensity to be adjusted flexibly. Its design with class II electrical insulation and IP20 protection makes it suitable for controlled interior environments.

Specifications

Frequency	50/60 Hz
High	30 mm
Width	43 mm
Class	AC
Driver included	Yes
Manufacturer	Lifud
Material	PC
Power (W)	150W
Depth	310 mm
Protection	IP20
Adjustable	Yes
Nominal voltage (V)	220-240V AC
Type of installation	Surface
Type of lamp	LED
Usage	Indoor
