Acti9 iC60N 4P 16 A C Curve Magnetic Thermal Switch

Brand: SCHNEIDER

Reference: IMPO A9F77416

4P modular magnetic thermal switch with a rated current of 16 A, C curve, and breaking capacity I_{cn} of 6000 A at 400 V AC. Designed for use in three-phase networks with thermal and magnetic protection, compatible with DIN rail mounting.

Description

4P modular magnetic thermal switch with a rated current of 16 A and C curve, designed to protect electrical circuits in three-phase installations. Provides thermal and magnetic protection through thermal-magnetic technology, suitable for use in AC and DC power networks.

Specifications

Frequency	50/60 Hz
Rated current (A)	16
Colour	White
Curve	C
EAN	3606480094316
Manufacturer	SCHNEIDER
Range	Industrial
Halogen-free	Yes
No. of poles	4P
Weight (kg)	0,5
Protection	IP20
Cable cross-section (mm ²)	16 mm ²
Rated voltage	400
