Description

Professional epoxy adhesive bicomponent in mix box format, designed to offer a solid and durable bonding using cold welding technique. This product is formulated to ensure effective mechanical support in repair and assembly applications.

Technical characteristics

- Type: Bicomponent epoxy glue
- Content: 18 units of 44 ml each
- Available colours: Black and white
- Drying time: 30 minutes (black) and 45 minutes (white)
- Underwater curing capacity
- Application on glass, plastic, ceramics, metal, wood and other materials
- Properties: Mechanizable, abrasion-resistant and chemical solvents

This adhesive allows for subsequent operations such as drilling, sanding, painting or machining the surface once it is cured. Its chemical and mechanical strength makes it suitable to withstand demanding conditions of use in various industrial sectors.

Specifications

Colour	White
--------	-------

EAN	0679723233851
Manufacturer	PEGATANKE
Capacity (ml)	44
