Description

Mop replacement designed specifically for the H2pro spin mop system. This triangular head is made of microfiber, offering a practical and sustainable solution for cleaning, as it is reusable and allows easy maintenance by machine washing.

Technical characteristics

- Model: H2pro spin mop
- Form: Triangular head
- Material: Microfiber
- Properties: Machine washable and reusable
- Compatible reference: 58118

The triangular structure facilitates access to corners and edges, while the microfiber composition ensures effective collection of dirt. Being machine washable, this replacement maintains its performance over time, reducing the need for frequent replacements and optimizing the use of the cleaning system.
