Description

ILARGI safety lock model 1202S, designed to offer protection in accesses through a double control system. This mechanism combines the functionality of an internal button for manual opening from the inside with an external cylinder that requires a key, ensuring a level of security suitable for standard doors and accesses.

Technical characteristics

- Mark: ILARGI
- Model: 1202S
- Length: 105 mm
- Opening system: Inner button and outer key
- Diameter of the bulb: 50 mm (round)
- Includes 5 security keys
- Key Copy Reference: UCEM-8D

This lock is equipped with a security bulb that includes five keys, facilitating the management of accesses for multiple users. The UCEM-8D reference allows you to obtain key copies if necessary, ensuring the continuity of the locking system.
