Description

Set of four VDE screwdrivers from the Vatton brand, designed specifically for safe electrical work. This set allows the tightening and loosening of flat screws and Phillips in installations with voltage up to 1000V, meeting the required safety standards for this type of applications.

Technical characteristics

- Content: 4 pieces (2 flat screwdrivers and 2 Phillips).
- SL4 flat screwdriver with length of 100 mm.
- Flat screwdriver SL5,5 with length of 125 mm.
- Phillips PH1 screwdriver with length of 80 mm.
- Phillips PH2 screwdriver with length of 100 mm.
- Homologated for electrical work up to 1000V.
- It complies with IEC 60900:2004.

The variety of tips and lengths included in the case offers versatility to access screws of different sizes in electrical panels or low voltage equipment. VDE certification ensures the protection of the user against electrical hazards during the handling of energized components or close to the current.

Specifications

Insulation voltage	1000 V
