Description

Ergonomic pruning scissors type bypass, model 6, designed specifically for medium hands and skilled users. Its structure prioritizes comfort and efficiency in cutting branches, offering a reliable tool for maintaining gardens and orchards.

Technical characteristics

- Type: Scissor of pruning bypass
- Model: 6
- Maximum cutting capacity: Up to ø20 mm
- Cutting blade: Of hardened steel
- Mango: Of forged aluminium
- Total length: 195 mm
- Leaf length: 42 mm
- Adjustment: Micrometric system
- Usage: Suitable for skill

The hardened grinding steel blade ensures clean and precise cutting, while forged aluminium handles provide lightness and strength. The tilted head and cushioned cushions naturally align with the wrist, reducing fatigue during prolonged use. In addition, its fully repairable design with replaceable components ensures a long service life to the product.

Specifications

EAN	0783929100043
Manufacturer	FELCO
Long	195 mm
Length	19,5
Material	Aluminio forjado
