Drim100 Air Diffuser Ø100 mm White

Brand: AIRROXY

Reference: EDM 87420

Drim100 air diffuser with diameter of 100 mm, designed for installation in ventilation ducts. It has a white finish that facilitates its aesthetic integration into air conditioning systems. Its main function is the uniform distribution of air flow, optimizing the efficiency of the ventilation system in enclosed spaces.

[View product online](#)**Description**

The Drim100 air diffuser is a component specifically designed for installation in ventilation ducts. Its main function is to facilitate the efficient distribution of air within the air conditioning or extraction systems, ensuring an adequate flow through its 100 mm diameter structure.

Technical characteristics

- Model: Drim100
- Diameter: Ø100 mm
- Colour: White
- Type: Air diffuser
- Implementation: Ventilation ducts

This element is presented in blister format, allowing for a clear display of the product prior to its acquisition. Being designed for 100 mm ducts, it is integrated directly into the existing ventilation infrastructure, contributing to the management of air flow in enclosed spaces.

Specifications

Colour	Blanco
EAN	5901583205613
Manufacturer	AIRROXY

Diameter (cm)	10 cm
