Description

The C7311 double elastic anti-fall is a safety device designed for load retention, equipped with a double elastic tape system that incorporates an energy absorber to manage impacts in a controlled manner.

Technical characteristics

- Model: C7311
- Type: Double elastic anti-fall with hooks
- Maximum load supported: 100 kg
- System: Double elastic tape with energy absorber
- Connection: Two steel hooks with 50 mm opening
- Security: Connector with safety lock

This equipment offers a robust solution for the attachment of elements, taking advantage of the elasticity of its tapes to cushion the forces generated during use. The presence of steel hooks and a connector with safety closure ensures a firm and reliable fixation in applications where up to 100 kg of weight is required.

Specifications

EAN	8436008506848
Manufacturer	FARU
Material	Steel
