

Product sheet

S&P Adjustable extraction outlet 185 mm white

Brand: S&P

Reference: SYP 5416405800

185 mm round BOC-160 suction mouth, made of sheet steel with white epoxy paint. Includes mobile central shutter to regulate the extraction flow rate in pressure ranges from 80 to 140 Pa. It is installed in wall or ceiling, supplying galvanized steel sleeve to facilitate connection to the duct.

[View product online](#)**Description**

The BOC-160 suction mouth is an adjustable extraction device designed for the management of air flow in residential and commercial spaces. Its structure is made of sheet steel coated with white epoxy paint, offering a clean and functional aesthetic. The system incorporates an aspiration cone and a mobile central shutter that allows the extraction flow to be adjusted according to the needs of the environment.

Technical characteristics

- Material: Steel sheet with epoxy paint.
- Colour: White.
- Form: Round.
- Nominal diameter of the duct: 185 mm.
- Front diameter: 185 mm.
- Working pressure: 80 to 140 Pa.
- Includes galvanized steel sleeve.

This equipment maintains a constant air flow rate within the specified pressure range, facilitating installation on both walls and ceilings thanks to the included sleeve.

Specifications

Colour	White
