Description

The BDOP 100 extraction and drive mouth is a white plastic component designed for simple flow, double flow or air conditioning ventilation installations. Its square design allows a clean integration inside, facilitating the management of air flow both in extraction and in drive, where it is possible to adjust the direction and range of the jet.

Technical characteristics

- Material: Plastic
- Form: Square
- Nominal diameter of the connecting duct: 100 mm
- Colour: White
- Power valve: Yes
- Drain valve: Yes
- With volume control: No
- Self-control: No
- Adjustment of 2 positions: No
- High induction: No
- With filter: No
- Limited output pattern: No

This BDOP model consists of a BDO mouth and a connection cuff with specific anchors for mounting on

plate. The configuration allows the installation of a flow controller directly in the duct, optimizing the performance of the ventilation system without additional controls in the mouth itself.

Specifications

Colour	White
EAN	8413893706256
Manufacturer	S&P
Material	Plástico
Diameter (cm)	10 cm
