S&P Self-regulating extraction outlet 125 mm white

Brand: S&P

Reference: SYP 5209158300

BARJ30 self-regulating extraction mouth made of white polystyrene, designed for automatic flow regulation in ventilation ducts. It has a nominal connection diameter of 125 mm and has a round shape.

Description

BARJ30 is a white polystyrene component designed for regulating the flow rate in ventilation systems. Its automatic operation allows to maintain a constant air flow without the need for manual adjustments, optimizing energy efficiency in closed spaces.

Technical characteristics

- Material: Plastic (polystyrene)
- Colour: White
- Form: Round
- Nominal diameter of the connecting duct: 125 mm
- With volume control: Yes
- Self-control: Yes
- Power valve: No
- Drain valve: No
- High induction: No
- With filter: No
- Limited output pattern: No

This model includes a joint sleeve that facilitates direct assembly in rigid ducts. The absence of feed or drain valves simplifies their integration into standard extraction circuits, ensuring a clean and functional installation.

Specifications

Colour	White
EAN	3411450225023
Manufacturer	S&P
Material	Poliestireno
Shape	Round
Diameter (cm)	12,5 cm
