**S&P Adjustable plastic
extractor/fan outlet BOR-160**

Brand: S&P

Reference: SYP 5416618600

BOR-160 pump pump mouth made of adjustable white plastic. Designed for extraction and air drive in rooms. It operates between 40 and 150 Pa. Includes mobile central shutter with adjustment screw to control flow. Available in BORP versions for Pladur and Borj for ducts.

[View product online](#)**Description**

The BOR-160 impeller pump mouth is a white plastic component designed for the extraction and impulsion of air in rooms and commercial premises. Its functional design allows precise control of the air flow through a moving central shutter powered by an adjustment screw.

Technical characteristics

- Material: White plastic.
- Range of use: Between 40 and 150 Pa.
- Mechanism: Mobile central shutter with adjustment screw for flow control.
- Available versions: BORP (with anchoring supports for installation in pladur) and BORJ (joint for installation in duct).

This system offers an adjustable solution that adapts to different ventilation needs, allowing to regulate the air flow according to the specific requirements of the space. The availability of two mounting versions makes it easy to integrate into both plate structures and standard conduits, ensuring a versatile and efficient installation.

Specifications

Colour	White
EAN	8413893210593
Manufacturer	S&P

Material	Plástico
