Description

The REB-ECOWATT remote speed control is a controller specifically designed to manage the speed of fans equipped with DC motors. Its main function is to allow the precise adjustment of the air flow by means of an intuitive control mechanism.

Technical characteristics

- Method of assembly: Superficial (spray)
- Colour: White
- Secondary voltage interval: 10...10 V
- Method of operation: Spinning button
- Switching contact: Yes
- Height: 80 mm
- Width: 80 mm
- Depth: 68 mm
- Degree of protection: IP44

This device offers a simple user interface thanks to its rotating button, facilitating daily operation. The IP44 degree of protection indicates an adequate resistance to the entry of solids and splashes of water, making it suitable for environments where some protection against particles and incidental humidity is required. Its compact 80x80x68 mm design allows discreet integration into plaster surfaces.

Specifications

High	80 mm
Width	80 mm
Colour	White
EAN	8413893259448
Manufacturer	S&P
Depth	68 mm
