Description

The S & P MNGP-100 Acoustic Insulation Module is a comprehensive solution designed for construction and installation professionals. Its main objective is to significantly reduce noise transmission, improving acoustic quality in the spaces where it is applied.

Technical characteristics

- Mark: S & P
- Model: MNGP-100
- Function: Reduction of noise transmission
- Design: Compact and lightweight
- Installation facility: High
- Robustness: Ensures a long service life

This module offers superior acoustic performance without compromising the aesthetics of the environment. Its lightweight structure simplifies the assembly process, while its robustness ensures durability over time.

Specifications

EAN	8413893416223
Manufacturer	S&P
