S&P 3-way rectangular horizontal tee TUBREC TERH 100

Brand: S&P

Reference: SYP 5416837500

Rectangular three-mouth duct made of flame retardant and self-extinguishing thermoplastic PVC. Designed for installations in false ceilings with limited space, it offers high watertightness and temperature resistance up to 90 degrees Celsius. Its non-adherent and antibacterial surface facilitates cleaning and guarantees hygienic air flow in single-family and collective homes.

Description

The rectangular horizontal three-mouth tube TUBBERC TERH 100 belongs to the range of solutions for ventilation installations in single-family and collective dwellings. It is specifically designed to integrate into false ceilings with limited space, offering an aesthetic finish and efficient installation. Its three-mouth configuration allows a versatile air distribution at different points in the space.

Technical characteristics

- Pipe material: Thermoplastic (PVC) flame retardant and self-extinguishing.
- Accessories made of high impact polystyrene.
- High watertightness and antifungal and antibacterial properties.
- Free of heavy metals, hygienic and non-stick to solid particles.
- Corrosion resistant, thermal and dielectric.
- Acoustic attenuation capacity.
- Maximum working temperature: 90oC.

These features guarantee a clean and safe air flow, minimizing the risk of fire and the accumulation of dirt. The combination of flame retardant materials and hygienic properties ensures superior durability and safety in the home environment.
