Airzone Circular diffuser motorized neck 150 mm white

Brand: Airzone

Reference: ZONE DFCI150BMTE

150 mm DFCI circular diffuser with white finish. It incorporates rectangular motorized gate to regulate the air flow according to the thermal demand of the area. Designed for air conditioning systems that require precise flow control in specific spaces.

Description

The 150 mm diameter DFCI circular diffuser is designed to accurately regulate air flow in air conditioning systems. Its operation is based on an integrated rectangular motorized gate, which allows to adjust the opening according to the specific thermal demand of the served area, thus optimizing the environmental comfort.

Technical characteristics

- Diameter: 150 mm
- Colour: White
- Type of control: Rectangular motorised door attached
- Model: DFCI

This system facilitates a dynamic control of the air passage, adapting in real time to the needs of the installation. The integration of the motorized gate directly into the diffuser simplifies flow management, ensuring an efficient response to temperature changes in the air-conditioned space.

Specifications

Colour	White
EAN	8435418916445
Manufacturer	Airzone
Diameter (cm)	15 cm
