Description

Insulated plenum circular diffuser with diameter of 200 mm and white finish. Designed to favor the airflow drive in four directions, optimizing the distribution in space. Its structure includes a central register that significantly facilitates assembly and subsequent maintenance tasks.

Technical characteristics

- Diameter: 200 mm
- Colour: White
- Flow drive: 4 directions
- Central registration for assembly and maintenance
- Base model: DFCI (circular diffuser with mounting bridge)
- Available options: DFCI+R with butterfly flow regulation on steel sheet, and DFCI+R with neck for flexible tube connection.

The availability of variants with flow regulation allows the air passage to be adjusted according to the specific needs of the installation. The neck option offers a practical solution for direct connection to flexible ducts, maintaining the ability to control the flow using the steel butterfly.

Specifications

Colour	White
--------	-------

EAN	8435418916568
Manufacturer	Airzone
Diameter (cm)	20 cm
