## Description

The 2-way, 500 mm-long Airzone linear diffuser is designed to optimize airflow drive in two directions. This long-range model incorporates mobile slats that allow to regulate the air output, facilitating its integration into duct networks for air conditioning systems.

Technical characteristics

- Mark: Airzone
- Type: 2-way linear diffuser (DFLI 2V)
- Length: 500 mm
- Colour: White
- Characteristic: Long range
- Components: Mobile slats
- Function: Promotes airflow drive in two directions

This diffuser adapts to air conditioning, heating and ventilation facilities. The two-way configuration allows for efficient air distribution in spaces where specific directional flow control is required.
