Description

The 2-way, 1200 mm long Airzone linear diffuser is designed to optimize air distribution in air conditioning systems. Its structure favors the flow drive in two directions, ensuring efficient coverage of the space. It incorporates moving slats that allow to adjust the direction of the air according to the needs of the installation.

Technical characteristics

- Mark: Airzone
- Model: DFLI 2V
- Length: 1200 mm
- Exit routes: 2
- Colour: White
- Components: Mobile slats
- Installation: Networking of conduits

This diffuser is integrated into air conditioning, heating and ventilation systems. The two-way configuration allows the air flow to be managed in a controlled manner, improving thermal comfort in large spaces. The presence of moving slats facilitates the fine adjustment of the air outlet.

Specifications

Colour	White
EAN	8435418919774
