

Product sheet

**Airzone Single aluminum grille
fixed louvers 400x100 white**

Brand: Airzone

Reference: ZONE RSDF040010BKX

Extruded aluminium diffusion grid with standard frame of 26 mm and horizontal slats fixed at 45 degrees. Its horizontal deflection design favors the return of the air flow upwards and downwards, optimizing the distribution in technical spaces with dimensions of 400x100 mm.

[View product online](#)**Description**

Single extruded aluminum grid designed for air diffusion with horizontal deflection. Its structure incorporates fixed slats that allow to direct the air flow in a controlled way, facilitating the return in the ascending and descending direction according to the needs of the air conditioning system.

Technical characteristics

- Material: Extruded aluminum.
- Dimensions: 400x100 mm.
- Standard frame of 26 mm.
- Horizontal slats fixed to 45o.
- Horizontal deflection.
- Colour: White.
- Type of assembly: Clip.

This design optimizes air distribution by keeping the slats in a fixed position, ensuring stable flow behaviour. The combination of dimensions and angle of deflection allows integration into installations that require precise control of the direction of the air without the need for constant manual adjustments.

Specifications

Colour	White
--------	-------

EAN	8435418974315
Manufacturer	Airzone
Material	Aluminio
