Airzone RLC Diffuser Grille 1 Direction 400x100 mm White

Brand: Airzone

Reference: ZONE RLC1040010BKX

RLC diffusion grid made of extruded aluminium with dimensions of 400x100 mm and white finish. It incorporates standard frame of 26 mm and horizontal moving curves that allow the individual regulation of the reach and the air vein, optimizing the distribution of the flow in air conditioning systems.

Description

RLC diffusion grid made of extruded aluminium, designed for the air drive with horizontal moving curves. Its structure allows individually to regulate the range and vein of air, adapting the flow to the specific needs of the space. This one-way model offers precise control of the orientation of the air through its moving slats.

Technical characteristics

- Material: Extruded aluminum.
- Dimensions: 400x100 mm.
- Colour: White.
- Standard frame of 26 mm.
- Horizontal slats moving curves.
- Individual regulation of slats.
- Typology RLC1: Impulsion with slats oriented in one direction.
- Clamping system per clip.

The ability to adjust each slat separately facilitates the optimization of thermal comfort and homogeneous air distribution. The design of curved slats contributes to a smoother and more controlled air output, reducing unwanted direct currents.

Specifications

Colour	White
EAN	8435418956977
Manufacturer	Airzone
Material	Aluminio
