Description

RLC diffusion grid made of extruded aluminium, designed for the air drive with horizontal moving curves. This model of a direction allows to individually regulate the range and vein of air, adapting the flow to the specific needs of the space.

Technical characteristics

- Material: Extruded aluminum.
- Dimensions: 600x100 mm.
- Colour: White.
- Standard frame of 26 mm.
- Horizontal slats moving curves.
- Individual regulation of slats.
- One-way orientation (type RLC1).

The mobility of the slats facilitates precise control of the direction of the air, optimizing the thermal comfort in the installation area.

Specifications

Colour	White
EAN	8435418959190
Manufacturer	Airzone

Material	Aluminio
