Description

The Airzone Blueface Zero black thermostat 8Z (CE6) is a zone control device designed for Airzone systems. Its colour graphic interface with capacitive display, combined with a finish in steel and glass, offers intuitive management of environmental comfort. This model is fed directly through the central system, ensuring a stable and efficient integration into the existing installation.

Technical characteristics

- Capacitive touchscreen with colour graphic interface.
- External finish in steel and glass.
- Available in black (there is also a white version).
- Support for 6 languages: Spanish, English, French, Italian, German and Portuguese.
- Temperature control and operating mode as master thermostat.
- System speed management for master thermostat and Fan coil installations.
- Reading room temperature and relative humidity of the area.
- Includes Eco-Adapt function for consumer optimization.

The ability to monitor relative humidity together with temperature allows for more precise control of the environment. The Eco-Adapt function contributes to energy efficiency by adjusting the operation of the system. Multilingual availability facilitates its use in international environments or with diverse users.

Specifications

Colour	Black
EAN	8445409074955
Manufacturer	Airzone
Material	Steel
