Product sheet

Koolair Motorized rectangular gate cable KCZR 15 150x150

Brand: Koolair

Reference: KOOL 100-C150X1501E05

Motorised straight composite with 15 mm KCZR cable, dimensions 150x150 mm. Designed for flow control in industrial installations. It allows precise regulation by means of integrated electrical actuator. Compatible with standard automation systems. Corrosion resistant material. Simple installation in horizontal or vertical pipes. Suitable for non-aggressive fluids. It complies with electrical safety regulations.

Description

Motorized rectangular gate with 15 mm KCZR cable, designed for flow control in technical installations. Its compact 150x150 mm format allows efficient integration into ventilation or air conditioning systems where precise and reliable maneuvering is required.

Technical characteristics

- Format: Rectangular
- Motorization: With KCZR cable
- Cable diameter: 15 mm
- Dimensions: 150x150 mm

This solution offers a direct drive mechanism that facilitates the regulation of air or fluid passage. The specification of the KCZR cable suggests an orientation towards applications where fire safety is a relevant criterion in the associated electrical infrastructure.

Specifications

Diameter	15 mm
