Koolair Eternal Radio Thermostat

Brand: Koolair

Reference: KOOL 100-ETER00

Eternal Thermostat Radio designed for precise temperature control in heating systems. This device allows to regulate the flow of hot water through an associated valve, optimizing the thermal comfort and energy efficiency of the space.

Description

The TERMOSTATO ETERNAL RADIO is a device designed for temperature control, offering a functional solution for climate regulation in enclosed spaces. Its design allows efficient management of the heating or air conditioning system, ensuring adequate comfort by monitoring and adjusting the thermal parameters.

Technical characteristics

- Model: ETERNAL RADIO

This equipment stands out for its ability to keep the temperature stable, contributing to the energy efficiency of the environment where it is installed. The user interface is designed to facilitate the configuration of the desired levels, allowing precise control without operational complications.
