Description

Two-layer flat sling made of high tenacity polyester, designed specifically for lifting loads. This model of the ACCUMaster brand features a design reinforced with hoops at the ends, ensuring a robust structure for hoisting operations.

Technical characteristics

- Material: High tenacity polyester
- Load capacity: 2000 kg
- Length: 1 meter
- Design: Double plan with reinforced shears at the ends
- Colour: Green
- Finished: Sewing with programmable automaton machines

The construction using automaton machines ensures a high quality finish and consistency in each unit. Its capacity of 2000 kg and length of 1 meter make it a versatile tool for industrial mooring and lifting systems.

Specifications

Colour	Green
EAN	8432453079258

Length	1 m
Material	Poliester
