Description

The ARREGUI Evolution Sob safe. Electric is a compact safety solution designed for the storage of flows and valuables. Its robust structure and electronic locking system offer effective protection against intrusion attempts, combining physical resistance and controlled access technology. Technical characteristics Measurements: 250x350x250 mm and weight 18 kg. Interior capacity of 16 liters with 1 tray. Thickness of 6+3 mm on the front and 3 mm on the body, with laser cut. 3 mm anti-trailer protection, rotating anti-silver bullions and anti-lever housing. Electronic closure with 8 digit display, 2 opening codes and Master function. Blocking after 5 wrong attempts and external micro USB power socket. Powered by 4 AA batteries, adjustable sound and low battery warning. Includes fixing screws and 19 mm holes in base and rear. This model stands out for its ability to manage accesses using numeric codes and gorge key, including an emergency key. The secret screen function and automatic blocking of failed attempts reinforce the security of stored content.
